

Title

Urchin Wall Light

Description

The Urchin Wall Light is inspired by the empty shells of the Sea Urchin 'Echinus esculentus', a creature who inhabits our Cornish coast line. Designed to completely conceal the bulb, the spherical form of this wooden wall light is made up from steam bent strips of sustainably sourced ash, oak or walnut wood and held by laser cut birch plates. The formation of the strips carefully conceals the light bulb whilst creating a beautiful lighting effect.

Made by hand in Cornwall, England from sustainably sourced wood and finished with an eco-friendly, non-toxic varnish.

To be used with an energy saving 25 watt light bulb (equivalent to a 125 watt standard bulb).

Includes an E27 ES wall mountable bulbholder and wall fixing kit. To be used with a small E27 low energy (Max 25 Watt) light bulb.

Designed to be easily installed on to an interior wall

* We are very sorry but this product is not available to our customers living in the USA. *
