

Loer Floor Light

Inspired by the elliptical orbits of the planets and moons that line the inner edges of our vast solar system, the Loer Lighting Range brings weightless illumination to any space it reaches. Combining a beautiful translucent glass sphere, sustainable steam bent ash wood and brushed metallic brass, the Loer showcases minimal, nature-inspired design at its finest.

Meaning 'Moon' in Cornish, the Loer Floor Light showcases a translucent glass orb with clouded bands of warm celestial white light which suspends within a sleek arch of supple ash wood. Held in place by brass detailed fixings that reflect the soft illustrious glow of the spherical globe when illuminated, the opulent, wooden floor light looks equally as eye-catching when switched off.

Illuminate space. Seek the extraordinary.

DISCLAIMER

Due to the character of handcrafted natural products, all dimensions are approximate. Wood colour may slightly vary. All product details are correct at time of print and are subject to change without notice.
