

Loer Table Light

Inspired by the elliptical orbits of the planets and moons that line the inner edges of our vast solar system, the Loer Lighting Range brings weightless illumination to any space it reaches. Combining beautiful translucent glass, sustainable steam bent ash wood and brushed metallic brass, the Loer showcases minimal, nature-inspired design at its finest.

Meaning 'Moon' in Cornish, the Loer Table Light showcases a translucent glass orb with clouded bands of warm celestial white light which sits within a sleek halo of supple ash wood. Held in place by brass detailed fixings that reflect the soft illustrious glow of the spherical globe when illuminated, the opulent Loer Table Light looks equally as eye-catching when switched off. This contemporary wooden table light is suited to hallway consoles, coffee tables or reading nooks.

Illuminate space. Seek the extraordinary.

DISCLAIMER

Due to the character of handcrafted natural products, all dimensions are approximate. Wood colour may slightly vary. All product details are correct at time of print and are subject to change without notice.
