

Raya Table Light

Inspired by the elliptical orbits of the planets and moons that line the inner edges of our vast solar system, the Raya Table Light brings weightless illumination to any space it reaches. Combining beautiful translucent glass, sustainable steam bent ash wood and brushed metallic brass, the Raya showcases minimal, nature-inspired design at its finest.

Named after lunar forms found in our solar system, the Raya Table Light showcases a translucent glass orb with clouded bands of warm celestial white light, rooted on a base of sustainably sourced ash wood, flourished with a brass base plate. The opulent wooden wall light calms interiors with its solar inspired design and is easily suited to bustling hallways, soothing bedside lighting and contemporary home office spaces.

Illuminate space. Seek the extraordinary.

DISCLAIMER

Due to the character of handcrafted natural products, all dimensions are approximate. Wood colour may slightly vary. All product details are correct at time of print and are subject to change without notice.
